### Structured Cabling

□

A structured cabling system provides a platform upon which an overall information system strategy is built. We design and build flexible cabling infrastructures - structured cabling systems that support multiple voice, data, video and multimedia systems regardless of their manufacturer. We are a "one stop shop" for all your organization network infrastructure needs. We will help you evaluate, design and install the optimum integrated system for your company.

**Copper Infrastructure Cabling Solutions.** Independently verified screened and unscreened data communication structured cabling solutions, providing ultimate performance and reliability for today's and tomorrows copper infrastructure requirements. Our Cat 5 (Cat 5e) or Cat 6 solutions will exceed TIA Cat 5e standards.

**Fiber Optic Cabling Solutions.** Conventional and blown fibre (fiber) cabling solutions that compliment the deployment of optical solutions deeper into the network delivering a future-proof infrastructure.

**Low-voltage Cabling Solutions.** Solutions that include music and paging systems, CCTV and security systems, fire alarms and access control systems.
